

552nd WE-Heraeus-Seminar "Physics of Biomolecular Folding and Assembly: Theory meets Experiment"

Feb 2nd 2014 - Feb 6th 2014

Physikzentrum

Hauptstraße 5

53604 Bad Honnef

Germany

Speakers

Orsolya Barabas, EMBL, Heidelberg, Germany
Ralf Biehl, Forschungszentrum Jülich, Jülich, Germany
Hendrik Dietz, Technical University of Munich, Germany
Shachi Gosavi, NCBS, Bangalore, India
Helmut Grubmüller, MPI Biophysical Chemistry, Göttingen, Germany
Frauke Gräter, HITS, Heidelberg, Germany
Volkhard Helms, University of Saarland, Germany
Gerhard Hummer, MPI Biophysics, Frankfurt, Germany
Changbong Hyeon, Korea Institute for Advanced Study, South Korea
Edward Lemke, EMBL, Heidelberg, Germany
Victor Muñoz, Centro Nacional de Biotecnología, Madrid, Spain
Ulrich Nienhaus, Karlsruhe Institute of Technology, Karlsruhe, Germany
Mikael Oliveberg, Stockholm University, Stockholm, Sweden
José Onuchic, CTBP, Rice University, TX, USA
Sheena Radford, University of Leeds, Leeds, UK
Matthias Rief, Technische Universität München, Munich, Germany
Alexander Schug, Karlsruhe Institute Of Technology, Karlsruhe, Germany
Ben Schuler, University of Zurich, Zurich, Switzerland
Claus Seidel, University of Düsseldorf, Germany
Joanna Sulkowska, University of Warsaw, Warsaw, Poland
Hendrik Szymant, The Scripps Research Institute, La Jolla, USA
Devarajan Thirumalai, University of Maryland, MA, USA
Anne Ulrich, Karlsruhe Institute of Technology, Karlsruhe, Germany
Rebecca Wade, HITS, Heidelberg, Germany
David Wales, University of Cambridge, Cambridge, UK
Martin Weigt, Université Pierre et Marie Curie, Paris, France
Wolfgang Wenzel, Karlsruhe Institute of Technology, Germany
Paul Whitford, Northeastern University, MA, USA
Pernilla Wittung-Stafshede, Umeå University, Umeå, Sweden
Magnus Wolf-Watz, Umeå University, Umeå, Sweden

Organisers

Alexander Schug (schug@kit.edu)

Abhinav Verma (verma@kit.edu)
